

0	The (first) ZERO God Sigil (in the original painting) - THE ALL (it says GOD). THE ALL is in All and All is in THE ALL.
1	Your sigil - it says your names together – Sophie & Lukas, which you can use and can add to it if you want. The Law of Gender, unity of Masculine & Feminine Principles
2	The Rainbow - The Law of Polarity - Rain and Rainbow - you can't have the Rainbow without the Rain and you can't have Happiness without Struggle...both are unified and polar opposites...
3	The Law of Rhythm - Moon Cycles & Star Cycles, Earth Cycles...
4	Lightening - The Law of Cause and Effect
5	The Sun - Golden Rule - The Law of Correspondence - Treat Others the way You want to be treated - you reap what you sow - As within, So without. As Above, So Below.
6	Rocky Mountain Peaks - Obstacles & Accomplishments
7	Evergreens - Gratitude & Growth
8	Your 3rd Sigil from the painting - We are home wherever we are together
9	Half Red & Half Black Fox - Kurt and I actually saw a fox like this one very early morning on our way to hot springs on Route 285. It's a Mystery...
10	Blucifer - The Devil , The Adversary; This is the statue of the horse at Denver Airport that broke and killed the artist that was creating it; and the City of Denver kept it and used anyway.
11	Kit Fox – Listen...
12	Lark Bunting ; Travel; the inalienable right to migrate(it's the state bird but it's not native to Colorado - it just migrates through)
13	Coyote : ever wily, crafty and a survivor; trickster
14	Sherpretty Lake, CO Lake Trout who never gets caught and is old as dirt; but I think he actually was caught and released in 2023 – a 73 lb Lake Trout was caught in that lake by a local guy – and released gratefully – but you gotta wonder what happens to them being caught – out in the air like that for long enough to take the picture etc. Hopefully he's ok.
15	Stanley Hotel, Estes Park, CO from the Shining Movie - The Klippoth – the negative tree of life - the creations of Man always end up being inhabited by negative spirits.
16	Unexpected Gift – my kitten Qi, saved my life – but is a huge responsibility.
17	Smokey Quartz - Colorado has a lot of minerals, but this is actually one that I have personally found, myself, in Sedalia.
18	Wild Mustangs are in the Sand Wash Basin, outside of Steamboat Springs and they are being rounded up by the Bureau of Land Management and adopted out to people. I personally work on them using the Emotion Code, for Trauma. They symbolize fighting for freedom.
19	Bald Eagles live in Colorado year round but also migrate here in the winter. They symbolize messengers from God by Native Americans, because they fly higher

	than any other bird.
20	Columbine, the State Flower - Notice it has 2 pentacles - an upright and inverted pentacle - which means balance both the reverse pentagram and the upright pentagram - like the Yin and the Yang. The upright pentagram means Spirit rules the senses. The reverse Pentagram is the sign of the devil - the senses rule over the spirit. This is a balance of both these in this flower.
21	Geese - another bird which migrates but also lives here year round that we encounter all the time are Canadian Geese. Lesson: Be yourself. The Geese definitely embody this - how they walk down the street, stop traffic, and honk together in the sky over head.
22	Pelicans - The American Pelican stops over in Colorado in the summer. Lesson: See the humor. I mean really - they are hilarious. Nature has a sense of humor.
23	Rattlesnake - Don't Tread on Me - means that I warned you, and if you don't listen then I have the right to strike to protect myself.
24	I saw Big Horn Sheep in Idaho Springs, and along Route 285 outside of Jefferson over the years.
25	We have wild Antelope on the plains. I see them every weekend we drive to our property. Community.
26	Mountain Goat - I have seen quite a few of these characters on the Mount Evans Road, in Monte Christo Gulch and in Buena Vista, CO above the hot springs. Surefootedness.
27	Weed & Shrooms. Take Psychedelic Break - stare at some reflections in a lake or frozen in ice in Nature - use a camera for a different perspective.
28	"All Connected" because Aspen Trees are all part of one giant organism underground.
29	The natural clouds , of Colorado, apart from the new fake clouds produced by chemtrails, are magnificent, such as these which are known as Anvil Clouds. Clouds block the sun, so they are known as Confusion. Limbo. Waiting.
30	Guitar: The Law of Vibration - singing and strumming, can raise your vibration from the inside out.
31	Hot Springs - Detoxify.
32	Plant Communication: go hug a tree and talk to plants. Tune in. Listen to their music.
33	Energy Healing: Get some or do some. Learn Qi Gong or Yoga.
34	Web Site Building: Security.
35	Friendship: The Lost Law of Care. Be a good friend. Find a good friend.
